

Since then Bryan Reo has filed a Motion for Pre-Trial Interest dating from when it was losing its case before the federal courts. Also Motion for Attorney Fees for when Attorney Brett Klimkowsky, likewise as with Reo a Board Member of the former White Supremacist lawfare NGO "The Foundation for the MarketPlace of Ideas" (FMI) also called The ZOGbot Poverty [F]Law Center (ZbPfLC) was trying to get Pastor Lindstedt barred from testifying on behalf of himself on the grounds of being locked up in a psychiatric prison in Missouri and thus too crazy to testify on his behalf but not crazy enough to not be sued on the grounds of diminished capacity. The previous judge reserved sanctioning Reo and Klimkowsky for abusing legal process, but Judge Condon finds that just dandy. Also Bryan Reo is back to whining about how Pastor Lindstedt didn't obey Reo discovery tricks and thus should be sanctioned and not allowed to have an appeal or something. While Bryan Reo claims that it sent this latest of its specious filings by certified mail, and thus not through a trusted confederate in the Mentor Post Office in order to evade postmarks this time Pastor Lindstedt grew tired of waiting and received from clerks the electronic filing by Reo on 24 July after Reo tried to extort Lindstedt via e-mail.

Pastor Lindstedt, on behalf of himself and his Church have filed a Rule(50) Motion for Judgment notwithstanding the Lake County Lynch Mob jury verdict on the grounds of lack of jurisdiction, the fact that Bryan Reo waited over three years after the alleged defamations took place in 2010-2012 to file a federal lawsuit in April 2014, which lawsuit was lost upon which Reo filed 8 days later on Sept 18, 2015. Reo called Pastor Lindstedt a "convicted child molester" in 2010 and at trial in June 2019 which is false. The jury was biased and inflamed. Neither the Church nor Roxie Fausnaught ever did anything against Reo but Reo was allowed to sue them, originally in the Mentor Municipal Court, which declined jurisdiction which the Lake County Court usurped. Reo didn't put on any exhibits but rather was allowed to cherry-pick from Pastor Lindstedt's and Lindstedt's Church's web page while Lindstedt was not allowed to present any evidence from said web pages which would disprove Reo's allegations and show Reo was committing perjury. Reo sought to amend its complaints at the end of last year and made appeals 2018-L-143 & 144 to do so after discovery was over and numerous trial dates set and continued by Reo and the trial court. The judge corruptly made it impossible for Reo to be punished for bringing up and continuing this case, and for proving Reo lied, and for proving Reo destroyed evidence of inciting a response by Lindstedt and Reo & Reo lawyer misconduct. Pastor Lindstedt has security video of the three day trial. In the alternative a new jury trial has been asked for

although with nine years since the alleged defamations the Ohio Statute of Limitations still holds like it should in denying this trial appealed from in the first place. Nor does these Ohio courts have jurisdiction.

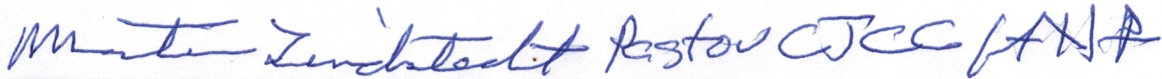

So therefore, what is requested is that the trial court clean up its mess, negate all judgments against Pastor Lindstedt and Lindstedt's Church, make Bryan Reo pay for the jury costs and court costs (and this appeals' costs) and make further litigation in Ohio come to an end. Accordingly this Appeals Court should remand the matter to the trial court for post-judgment filings in question and stay the proceedings until the trial court has done so. This way Pastor Lindstedt need not pay for a \$2,276 transcript unless it is necessary to proceed with this appeal in order to show the full misconduct of Attorney Bryan Reo and of the trial court.

The Ohio Courts and Ohio bar have deliberately instituted religious as well as racial civil war by their lawless and unconstitutional policy of claiming that Pastor Lindstedt cannot represent his bed-bound illiterate woman or Church corporation formed for the purpose of perfecting the religious and racial religion of Dual-Seedline Christian Identity amongst Aryan Christian Israelites EXCLUSIVELY. Bryan Reo and the Lake County Court have thus used that to negate the exercise of this religion by insisting that rather than simply worshipping in peace that this Church must hire those who are Servants of Satan, i.e. lawyers. This in turn creates the duty to treat Ohio in general and Lake County in particular as Sodom and Gomorrah and as the Tribe of Benjamin influenced by Canaanites like Bryan Reo and William Finck. This means a policy of prion-poisoning and of making the North Perry Nuclear Power Plant – which has already been likely inadvertently saved by the operators finding out that Bryan Reo was a self-loathing mongrel playing White Supremacist and thus firing Reo as an “internal security risk”. This Mighty Evil Empire of ZOG/Babylon must be destroyed and the prison of peoples freed, and the Aryan Christian Israel Children of YHWH be saved through this collapse into Ten Thousand Warlords ruling over local theocratic military dictatorships over the 10-20 million ex-whigger survivors.

Bryan Reo and most of the so-called Alt-Right, especially those of the Foundation for the Marketplace of Ideas / ZOGbot Poverty Flaw Center are nothing but non-white, jew, mongrel and homosexual agents provocateur tasked by the federal and state governments with infiltration and exposure of unwary young whites as at the Charlottesville Fiasco and in using “lawfare” to harass and disrupt and impoverish Resistance organizations such as Pastor Lindstedt and

Lindstedt's Church. This will not work as collapse is inevitable. However this appellate court can take steps so as to not deserve as much the chernoblyzation of its nuclear power plants, prion-poising of its deer and fields, the extermination of its establishment of police and lawyers, and aiding the survival of the best of its White population.

Hail Victory !!!
